

SolvAir

PACKAGING DRYING SYSTEMS FOR THE FOOD & BEVERAGE INDUSTRY

High efficiency solutions for bottles, cans, jars and other packaging concepts.

Throughout the food & beverage sector manufacturers look for well designed, easy to use and above all energy efficient solutions for the removal of water, residual product and dust from their packaging. SolvAirs range of packaged solutions are specifically designed to satisfy the demands of modern production lines. The significant energy benefits are complimented with well designed components from high quality stainless steel.

Market Leading Energy Efficiency
Our systems incorporate PAXTON High Performance Centrifugal Blowers.

Paxton High Efficiency Blowers

Constructed of the highest quality parts held to the strictest standards, every Paxton blower undergoes comprehensive performance, vibration and noise testing before leaving the factory.

State of the art impeller design produces more airflow at lower blower speeds. Unrivalled reliability illustrated by our 3-Year Warranty.

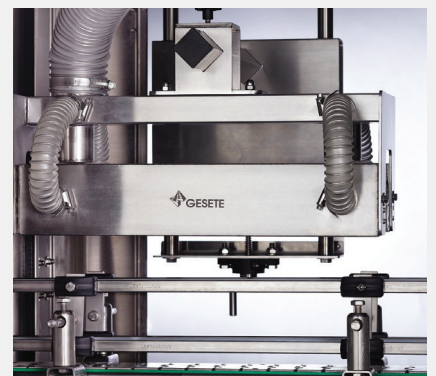

System Component Features

High quality stainless steel construction throughout.

Integrated mounting and adjustment system for quick and accurate positioning of the air knives.

Specially designed bottle cap/neck drying device.

DRYING SYSTEM - GESETE **HIGHLINE**

- High efficiency drying system for bottles, cans, kegs, crates, jars, boxes, caps, bags, packs, etc.
- Designed to meet the highest standards of performance, user comfort, hygiene and noise control.
- Includes an industry leading ENERGY EFFICIENT Paxton blower mounted overhead in an acoustic enclosure.
- Easily integrated into both new and existing production lines.
- Hinged access doors with viewing panels.

Drys:

DRYING SYSTEM - GESETE **ECOLINE**

- Complete stainless steel construction combining affordability with excellence in engineering.
- A complete turnkey solution encompassing high penetration air knives, blower technology and an operator friendly design.
- Includes an industry leading ENERGY EFFICIENT Paxton blower mounted overhead in an acoustic enclosure.
- Quick release removable side panels allowing complete system access.

Drys:

DRYING SYSTEM - GESETE **COMPACTLINE**

- Freestanding system designed specifically for the drying of bottle CAPS and NECK areas.
- Includes an industry leading ENERGY EFFICIENT Paxton blower mounted overhead in an acoustic enclosure.
